BUFFALO, Oct 19th, 1858. Eos. Com .- The fight between Moreissey and Heenan will come off at a point in Canada, to morrw, eight miles from Buffalo. Excitement intense. Betting one hundred to eighty on Morriessy. Several bosts started at midnight, the town full of strangers; many from New Orleans.

ACCIDENT TO MORRISSEY. One of the mail agents on the Hudson River Railroad reported last evening that an attempt was made to arrest Morrissey and Heenan in Buffalo on Saturday in or to prevent the coming prize fight. Heenan secreted himself in the city, and Morrissey walked out on the Central track for some miles to elude the police. A freight train overtaking him, he attempted to jump upon one of the cars which passed, and missing his step was dragged a consider ble distance. A brakeman eventually discovered Lis situation and assisted him to get upon the car. His limbs were so much bruised that he will be lame for a considerable time. The wonder is that he was not dashed to pieces. It is stated that he subsequently took the cars on some branch road leading from the Central, and thus escaped arrest.

A correspondent of the New York Times writing from Buffalo on the 16th, pers:
